

Refill Instructions: HP 701

Procedure:

1. Put the cartridge on some paper towels in an area where you can tolerate a spill.
2. There is a small hole on top of the cartridge. Use your MIS Yellow tool and drill the hole larger.
3. Fill the syringe with 15 ml of ink.
4. Inject ink slowly into the drilled hole.
5. When finished, remove the syringe and leave the filling hole opened.
6. Replace the cartridge and run 1 - 3 cleaning cycles as per printer instructions.
